

PaperCut^{MF} Feature

SCAN TO CLOUD STORAGE

PaperCut MF's Integrated Scanning solution now provides a secure and effortless way to get documents to the cloud. A growing number of cloud storage providers, including Google Drive, DropBox (personal), OneDrive (business and personal), Box, are available in PaperCut MF. It's secure and easy to set up and seamlessly integrates with the overall PaperCut MF experience.

OVERVIEW

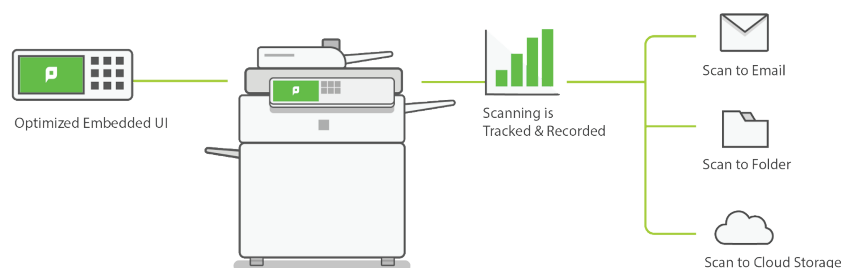

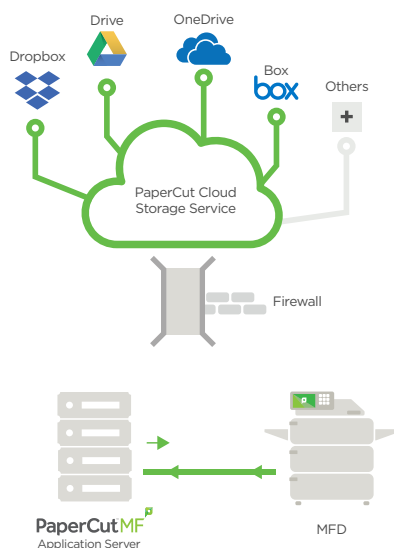

What is Scan to Cloud?

It's sending scanned documents to services such as Google Drive, Dropbox, OneDrive and Box, via your scanning device.

Scan to Cloud Storage is compatible with all sorts of device brands, makes, and models. So if there are any changes to your print environment (which, let's face it, wouldn't be unusual) you can trust that Scan to Cloud Storage (and PaperCut MF) will continue to work happily.

Scan to Cloud Storage is included in Premium Upgrade Assurance (PUA). To save you time, we'll automatically check that you have an active PUA subscription when Scan to Cloud is enabled.

Note: Scan to Cloud Storage is available on all Integrated Scanning-enabled devices. However, an active Premium Upgrade Assurance (PUA) subscription is required to use this feature.
